Evercore Pan-Asset offers specialist asset allocation advice across an extensive range of global asset classes. Founded in 2007 by John Redwood, Robert Brown and Christopher Aldous, our clients now include pension funds, charities, universities and family wealth. We believe that asset allocation decisions are the most important part of the investment management process. We help pension trustees with these decisions, particularly where a scheme may be in deficit and asset allocation advice is needed to correct the problem.

About MN

With more than 60 years experience, MN is one of the leading fiduciary managers in Europe. We manage assets totaling in excess of GBP 70bn (March 2012) for over 1.9 million members and approximately 36,000 employers.

We offer our fiduciary management solution to pension funds and other institutional investors.

Being wholly owned by pension schemes, we are uniquely placed as a strategic partner for trustees and corporate sponsors regarding the development, implementation and monitoring of their investment strategy relative to their liabilities.

Our clients choose us because of our independence, expertise and proven track record.
